

# COSTA MARE

PROJECT BRIEF: TOWER II

# AN ISLAND OF SANCTUARY

At Costa Mare, architecture becomes an experience—a journey through space and time, where the mountain's silent grandeur meets the soothing rhythm of the sea

# ESCAPE AND CONNECT

The rugged beauty of Ras Al Khaimah's mountainous terrain and the serene allure of Al Marjan Island serve as the foundation for Costa Mare, a visionary architectural statement that seamlessly rises from the landscape like a sculpted form of nature itself. Inspired by the raw elegance of its surroundings, the design embraces the organic contours and textures of the region, allowing the structure to emerge as an extension of the environment rather than an intrusion.

This architectural narrative is one of fluidity and harmony, where every elevation, material, and form is informed by the natural rhythms of the land and sea. The interplay of light and shadow across its façade mirrors the undulating mountain ridges, while the use of locally inspired textures and earthy tones creates a dialogue between the built and the unbuilt. Positioned between the dramatic peaks and the pristine shores of Al Marjan Island, Costa Mare captures the essence of waterfront serenity, blending seamlessly with its breathtaking coastal surroundings. Costa Mare is a retreat, an invitation to disconnect from the city's relentless pace and immerse in a setting where nature takes the lead.

# ISOMETRICS

This residential development redefines community living with its innovative design. The concept emphasizes connectivity and harmony, seamlessly linking buildings with bridges while celebrating life on a grand scale. At its core is a striking central split, transforming an entire floor into a vibrant landscape hub. This level features lush greenery, exceptional amenities, and diverse outdoor spaces, fostering a shared environment where residents can connect, unwind, and thrive. The design embodies a vision of unity and modern living within a single, extraordinary development
