Dubai Islands

PROJECT BACKGROUND

LOCATION

Dubai Islands are situated at the mouth of Dubai Creek. The northern most man-made islands along the Dubai City coastline.

SIZE

Dubai Islands are made up of five islands, totaling 17 square kilometers of development area.

CURRENT CONDITIONS

Island A has been planned and partially under construction.

Islands B, C, D and E are currently being repositioned to reflect the market change towards lower density hospitality destination and residential communities.

LOCAL CONTEXT

Dubai Islands enjoy and benefit from the activities, culture, entertainment and services of local and regional Dubai.

DESIGN BRIEF

Provide a vision master plan for Dubai Islands that ties into **DUBAI 2040 goals**.

Review the previous master plans with the intent of **repositioning existing and committed Dubai Islands offerings**.

Create resort lifestyle destinations and communities with lower-density villas and mid-density apartments.

Maximize real estate premiums along the golf courses, beaches, and marina.

Create open space systems that provide venues for sports, entertainment and recreation amenities.

Create convenient and diverse movement experiences for residents and guests through a well-connected and multi-modal circulation network.

Optimize waterfront views and activities to emphasize the location on the Dubai coast and realize the site's development potential.

DUBAI MASTER PLAN 2040

Land area for **hotels and tourist activities** will increase by 134 percent, and for commercial activities, it will increase to 168 square kilometers.

A Global Destination

The length of **public beaches** will increase by 400 percent.

400

Nature reserves and rural natural areas will constitute 60 percent of the Emirate's total area.

60

Land area for **education and health facilities** will increase by 25 percent.
