

SUN VALLEY COUNTRY SIDE

“ N A T U R E I S C A L L I N G ! ”

ABOUT SUNVALLEY COUNTRYSIDE

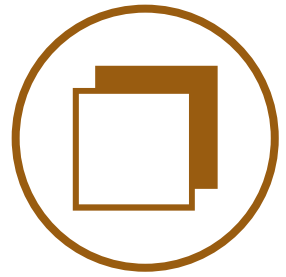

Sun Valley Countryside is our new upcoming third area within Sun Valley Resort & Residency which will be located within the same region of Esentepe as the whole project, close to supermarket, pharmacy and our very own Sun Valley Beach & Marina. This new project design focuses on comfort, peace and fun, all in a natural scenery with exceptional sea and mountain views.

The architectural design in Sun Valley Countryside is focused on environmental friendly materials, with sustainable techniques, and there is a plan to be in one with the nature. All details are very well thought through as always within Sun Valley Resort & Residency, a quality life in a peaceful environment.

A new way of living will begin in Sun Valley Countryside as we are going even more green!
