BALCO

BALCONE from Italy captures the image of Venice, where every house has balconies that extend outward like bridges, connecting privacy and community. The balconies or terraces have become symbols of Urbanization and Modernism, providing a free space for everyone in the house, whether for eating, chilling, or gathering.

The symbolic image of the balcony, conveying the meaning of relaxation without explanation, is transformed into BALCO, a seaside villa that is intricately connected to Phuket, the Andaman Pearl, and a world-class resort city.

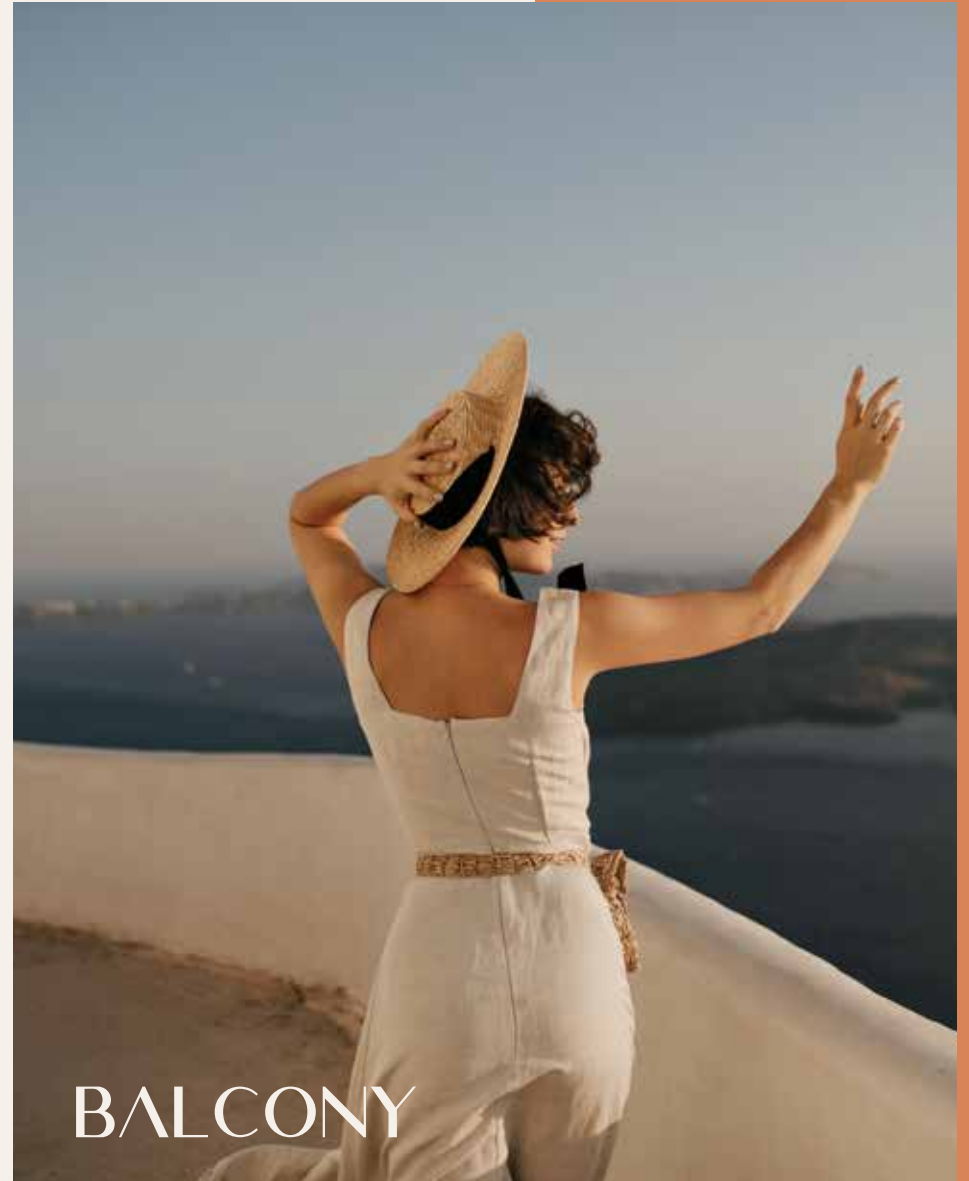

Through a blended design, the essence of the balcony and Modern Bali is communicated directly to the vacation home, allowing the sea breeze to flow seamlessly through the house, balcony, and rooftop. This design envisions BALCO as a tranquil retreat that harmonizes with the global atmosphere of Phuket, the Andaman Pearl.

SENSATION OF BALCO

"Sundrenched imagery of dwelling through the context of the Balcony, which provides a balcony or terrace as a connecting bridge. Between privacy and community, linking relaxation and living.

Implemented through design to meet the needs of a lifestyle that flows continuously and seamlessly, such as The Master bathroom connected to the Main pool creates an environment that promotes relaxation. There are levels, from Sunbathing to active swimming, and resting in a romantic bath."

BREATH

Create the intricacies of living through the breath of the sea breeze, anchored from the foundation of the balcony, complemented by a design that contemplates functional spaces that cater to both outdoor and semi-outdoor wind reception.

BAREFOOT LUXURY

From the context of the Balcony, an extension of the home where there's no need for shoes, allowing you to walk out and feel the breeze - half private, half gathering. Tied to the context of Modern Bali, rooted in design inspired by the land and water

Harmonizing with Bang Tao, a renowned beach known for the best sunset views in Phuket and also hailed as a Quiet Luxury Beach.
