Phuket

Where the dreams come true!

PROSPERING TOURISM INDUSTRY

12 million people - the expected number of tourists in Phuket in 2023. The island is ranked 6th by Tripadvisor among the most popular tourist destinations in the world.

STABLE ECONOMY

Low inflation and stable currency - guarantee of reliable investments. Over the past 20 years, THB gained 20% against USD.

FAVORABLE INVESTMENT CLIMATE

Affordable prices - entry threshold from \$120,000, flexible financing programs from developers, high income and stable increase in capital through capitalization.

DEVELOPING INFRASTRUCTURE

Social infrastructure, new road connections and second airport are being built on the island, in the nearest future - surface metro and international theme parks.

LIMITED LAND RESOURCE

About 60% of the land in Phuket belongs to parks and reserves. The area available for development near the beaches is almost finished. High-rise construction is prohibited on the island. Lack of land will dictate higher property prices.

ALL-YEAR-ROUND SEASON

You can swim in the warm sea, enjoy your beach holiday at any time of the year.

Prestigious location

Andaman Riviera project is located in Bang Tao area - this is a picturesque place, the most sought after in the premium segment on the island.

The area is suitable for a quiet and respectable holiday. The distance to the white sandy beach of Bang Tao is 500 metres. The length of the sandy coastline is more than 7 km, thus, this beach is never crowded.

Within walking distance: Catch Beach Club, Laguna Phuket Golf Club, Porto de Phuket Shopping Center, Boat Avenue, Mango Market and much more.

ANDAMAN CITY

At this stage, we are completing the construction of **Andaman Riviera** condo hotel managed by the international hotel group Radisson Individuals.

The next stage is the construction of boutique residences.

The format of the **Andaman Boutique Residences** project was chosen based on the analysis of the real estate market and the great demand for rent and purchase of 3-bedroom spacious apartments with their own swimming pool within walking distance to the sea.

We are also starting the construction of the **third phase of Andaman City** - a condominium with thoughtful layouts.

All three projects are united by **the infrastructure of the premium resort level**, unique for the island of Phuket, designed for a wide range of interests and a wide age range of residents.

Profitability per year from rent 8-12% per year.

Increased rental rate compared to other properties on the island.

Guaranteed growth per year is 4-5%.

Inflation over the past 10 years amounted to 12.3% only (UAE 15%, USA 25%, Indonesia 40%, Russia 75%, Turkey 179%).

Stable currency. Over the past 10 years, the exchange rate of the national currency has been in the range of 31-36 baht per dollar.

Real estate index growth 38% over 10 years.

Recovery after covid:

- Phuket property market is back to pre-pandemic levels
- Phuket expects 12 million tourists in 2023

Limited land resource. 70% of the territories are national parks. High-rise construction is prohibited on the island.

Easy transfer of funds and low transaction costs.

Developer Information

The condominium is being built by Andaman Riviera Construction, the developer and real estate agency in Phuket with 8 years of real estate experience.

Among the company's other projects are successfully completed residential complexes in Australia (Gold Coast).

The background of the image features a light green, monochromatic palette with a subtle, semi-transparent pattern of palm fronds. The fronds are arranged in a way that creates a sense of depth and texture, with some appearing more prominent than others. The overall aesthetic is clean, modern, and evocative of a tropical environment.
